--	--------------------------	-------------	----	------

NET ENERGY METERING			
----------------------------	---	--	--

With the YourChoice program, you'll receive an energy credit for the power your system provides to the grid. At the close of each month, we'll tally the amount of grid energy you've consumed and contributed. If what you've contributed is more than what you've consumed, we'll issue a credit. If you've used more than you've contributed, you'll be debited. Each April, on the true up date, the kilowatt usage is evaluated, and if your energy production exceeds your energy consumption, a rebate is issued based on \$0.06 per kWh. If we owe you more than \$100 we'll cut you a check. Otherwise, the credit balance will just roll over to next year. Simple as that.
